

Description of Additional Supplementary Files

File Name: Supplementary Data 1

Description: Statistics of the whole genome resequencing data for the falcons.

File Name: Supplementary Data 2

Description: Genes in the adaptively introgressed regions.

File Name: Supplementary Data 3

Description: Positively selected genes in the QTP sakers identified by XP-EHH method.

File Name: Supplementary Data 4

Description: Genes in the focal selective sweep of Chr 4.
