\* Scalds only (N=533 score 0-2, N=144 score = 3, N = 42 score = 4, N = 31 score = 5, N = 10 score = 6, N = 5 score 7-8).

\*\* Proportions are calculated with the total number in each score category as denominator, hence does not add up to 100% as several combinations of variables will contribute.
