Correction to: *Mol Syst Biol* (2019) 15: e8983. DOI 10.15252/msb.20198983 | Published online 23 December 2019

Since the publication of this study, it has come to our attention that a citation to the study by Bulkescher *et al* (2017) was omitted from the Introduction. The following sentence should have been included in the introduction: “A previously reported solid-phase reverse transfection method for proteins (Bulkescher *et al*, 2017) was used for the delivery of RNPs for three endogenous genes suggesting the potential of solid-phase reverse transfection for CRISPR/Cas9-based gene editing, despite its low efficiency”.

We apologise for any inconvenience this omission may have caused.
